LEARN

In 2014 the Karaka School Community undertook a collaborative consultation process to develop a new school vision that was representative of our context and that captured the aspirations of all its' stakeholders. Emerging from our vision is the whakatauki that underpins our approach towards achieving our vision. Sitting behind our vision are our five core values that emerged during the consultation process. At the end of 2017 the BoT undertook a review of our vision and values. Emerging from this were 3 new strategic goals that were sent to our school community for consultation and implemented in 2018. The goals will advance our learners towards embedding the values and achieving the vision.
